MEET YOUR CAPTAIN GEORGE & CHEF/STEW ELLE

Chartering the boat with George and Elle is not just an ordinary nautical escapade, but a voyage intertwined with passion, experience, and a shared dream.

Meet George, whose lifelong love of sailing began with humble makeshift sails crafted from fishing rods and roller blinds. He honed his skills racing dinghies, including lasers, and even made it to the Olympic youth team. At 17, his quest for adventure led him to a yacht charter position in the south of France, where he climbed from deckhand to chief officer on a 40m Superyacht. Despite his success, he felt something was missing—the billowing sails of his dreams.

That yearning led George to 'Stormy Weather,' a classic sailboat from 1934. Teaming up with Elle, they embarked on a mission to create unforgettable charters, blending their love for sailing and fine cuisine. Elle's dream of blending cooking with a life at sea became a reality after the challenges of the COVID-19 pandemic. Elle's philosophy is simple yet profound; she believes that cooking with love provides food for the soul. Together, they are dream weavers, offering guests a unique experience that nourishes both body and soul. Their journey combines luxury, adventure, and culinary delights where they aim to create lasting memories for their guests.

Join Elle and George on a unique culinary odyssey where sea air blends with the aroma of Elle's creations, and the magic of fine dining meets the enchantment of the sea. They're redefining what a charter can be, one delectable bite at a time.

GUEST REVIEW

We had a fabulous first-class experience aboard Legasea. The water taxi transport and the overall experience of getting to the boat were great. George and Elle were wonderful. George was entertaining, and knowledgeable and always made us feel safe. Elle was thoughtful, caring, and a great chef.

We must say that our experience was incredible. The Virgin Islands provided a breathtaking backdrop of the islands and natural beauty, and the water was mesmerizing. One of the standout aspects of the trip was the fact that we were seeing different islands daily, and the boat was able to offer us the opportunity to see hidden gems that are often inaccessible for larger vessels. From the moment we stepped on board, we were impressed with George and Elle's attention to detail and their commitment to ensuring that every guest had a fantastic experience. The crew's knowledge about the boat, their dedication to safety, and their genuine warmth all contributed to making the journey not just enjoyable, but also educational and enriching. No one went hungry with Chef Elle's fabulous meals, not only did they taste great the presentation was beautiful. We are truly grateful for the chance to have been a part of this journey and to now call George and Elle our friends! It's clear that Legasea is not just a vessel, but a platform for unforgettable experiences. We are looking forward to our next trip!
